About Us...

California Staffing Service (CSS) is a well known company providing on-call, temporary, and permanent staff to public and private preschools, daycares, and before and after school programs. California Staffing Service has several years of proven experience in providing assistance to the nation's largest childcare chains. While operating well established offices in Northern and Southern California, California Staffing Service continues to cover hundreds of schools statewide and if needed we can serve your center, too!

...Why sign up?

Signing up with us will simply allow us to add your center's information into our data base to ensure there are no delays when you suddenly find yourself in need of assistance. You are only billed as you use our services. If you never use our services, you're never billed. Signing up with us is completely risk-free! There is never any fee to sign up and absolutely no obligation to use our service at any time! No more hassle in seeking an alternative when your staff member calls in sick. Let us do the work, that's what we're here for!

Benefits of using California Staffing Service

Temporary Use Benefits

We all know that when short staffed, it can jeopardize your students and your license, so why take the risk seeking for an alternative when California Staffing Service is just one phone call away? Just let us know the specific qualifications you need and we'll have someone there right away! Our well qualified employee will show up with the state mandated requirements in their personnel file (copies of their I.D., health screen clearance, Community Care Licensing clearance number, transcripts or credentials, transfer request form, etc.) ready for you to associate them with your facility number.

Permanent Placement Benefits

California Staffing Service has an experienced full-time staff conducting all the necessary requirements to fill a permanent vacancy for your center, which includes but not limited to:

- Screen applicants
- Conduct in-person interviews
- Verify employment history
- Verify transcripts and credentials
- Verify personal and professional references
- Obtain health screenings and TB test
- Obtain fingerprint background clearance from licensing

Just tell us the position you're trying to fill and we will search our sub pool for all employees that meet your needs and send out our top candidates for you to meet personally.

Or, you can "try before you buy" by using those candidates as substitutes first so you can see them in action before making any final decisions. Whatever you need, just call us! We're here to help!!!

We have employees with:

Infant/Toddler Units
Administrative Units
Montessori Training
Title 22
Title 5 Qualified
...and much more

Call to see who is available in your area!

For your reference:

We carry our own liability insurance and worker's compensation!
